Statement by Søren Bjerre-Nielsen, Chairman of the Committee of Directors and the Board of Directors of Danmarks Nationalbank

The Committee of Directors and the Board of Governors, and subsequently the Board of Directors, have discussed the Danish tabloid Ekstra Bladet's articles about the travel behaviour of the Board of Governors.

So far, Danmarks Nationalbank has followed the travel regulations applying to government ministers, but it will now be assessed whether the actual travel behaviour of ministers has changed.

In the near future, the Board of Governors will thus review the travel regulations with a view to possible adjustment and updating. This will include an assessment of whether the rules for accompanying spouses are up to date. Ultimately, the regulations will be reviewed on a quarterly basis by representatives of the Committee of Directors and the Board of Directors, among others, with subsequent reporting to the Committee of Directors and the Board of Directors.
