

3. July 2008
Ref.:2008 - 20E

Interest rate increase

Danmarks Nationalbank's lending rate and the rate of interest on certificates of deposit are raised by 0.25 per cent to 4.60 per cent. The discount rate and the interest rate on the banks' current accounts with Danmarks Nationalbank are raised by 0.25 per cent to 4.25 per cent. The increase will have effect as from 4 July 2008.

The interest rate increase is a consequence of the European Central Bank increasing the minimum bid rate on the main refinancing operations by 0.25 per cent to 4.25 per cent.
