I want the invalid banknotes to be

- exchanged for new banknotes
- deposited in my bank account

Please note:
Amounts over DKK 5,000 can only be paid into your bank account

- I am the rightful owner of the banknotes

You must bring:

Valid photo ID (passport, official national ID card from EU countries or Nordic driver's licence) and official proof of your permanent address. In Denmark, this is typically your social security (CPR) card. If you have an address outside of Denmark, corresponding official proof of address will be required.

If you would like the money transferred to a Danish bank account, fill in the box to the left below.

If you have a foreign bank account, fill in the box to the right below. If you want to exchange the money for cash, leave both boxes blank.

How did the banknotes come into your possession?

Danmarks Nationalbank will issue the transaction in Danish kroner to Danish accounts. When transferring to a foreign account, the transaction is converted into a currency other than Danish kroner. Any fees, transaction and exchange fees are borne by the recipient.

In the field above, describe how you acquired the banknotes. It could be an inheritance, savings, gift, loan or anything else that clearly explains the origin of the money. Stating why the cash was not used before it became invalid as a means of payment can be beneficial.

Please note: FOREX or Danmarks Nationalbank may request additional documentation of the origin of the invalid banknotes before they can be exchanged or transferred to a bank account. Submitting cash for exchange requires sufficient documentation.

Information about the banknote exchange form

This document explains what information FOREX and Danmarks Nationalbank need and what documents must be brought to the Nationalbank's exchange point. If any information or documentation is missing, the banknotes cannot be handed in and therefore cannot be exchanged or paid into your bank account.

You must fill out the form online before you arrive at the exchange point

The exchange form must be filled in online *before* you arrive at the Nationalbank's exchange point. The completed form must be printed out and brought in paper format. The form is documentation for the notes you want to redeem for you, FOREX and Danmarks Nationalbank. The form must be shown before the exchange. The form will be checked by staff at the exchange point before exchange can be made.

Banknote owner

In the "Banknote owner" field, you must enter your name, social security (CPR) number (or other personal ID number if you do not have a Danish CPR number), nationality (the country stated in your passport), permanent address (including country), email address and a phone number. You must therefore bring the following original and valid documents (not copies): Photo ID (typically your passport, official national ID card or a Nordic driver's licence) and social security card.

How do you want the notes exchanged?

Please decide whether you want the notes to be exchanged cash for cash or deposited into your bank account. Please note that if you hand in more than kr. 5,000, the money cannot be exchanged and must be deposited into your bank account. If you wish to have part of the money exchanged for new cash and the rest deposited into your bank account, you must bring two completed exchange forms.

Total amount (DKK)

In the "Total amount (DKK)" field, enter how much money you want to hand in. The exchange point staff will count and check the notes in your presence. If you are bringing more than kr. 50,000, you must contact FOREX by email at nationalbanken@forexvaluta.dk *in advance*. In the email, state how much money you want to hand in and attach the following documentation: a detailed explanation of how the money came into your possession, which exchange point you want to use, and proof of the origin of the cash.

Transfer to Danish bank

If you want your money to be deposited into your bank account regardless of the amount, fill in all the details in the "Transfer to Danish bank" field. You must bring proof of your account. Note that there may be a turnaround time of up to 6 weeks. For submissions made on or after 18 May 2026, the turnaround time may be up to 12 weeks due to the high volume of submissions received in the period leading up to the deadline 31 May 2026. The turnaround time may be longer if Danmarks Nationalbank needs additional documentation.

Transfer to foreign bank

If you live abroad, you can have your money transferred to your account in your country of residence. If your bank does not use IBAN and SWIFT, you can enter the information needed to make the transfer in the "Transfer to foreign bank" field under "Other information". You must bring proof of your account.

Note that there may be a turnaround time of up to 6 weeks. For submissions made on or after 18 May 2026, the turnaround time may be up to 12 weeks due to the high volume of submissions received in the period leading up to the deadline 31 May 2026. It may be longer if Danmarks Nationalbank needs additional documentation.

How did the money come into your possession?

The origin of the money *must be* fully described and documented before the money can be exchanged. In the field "How did the money come into your possession?" please state how you got the money. For example, it could be an inheritance, gift or something else. The more detail you provide on how the money became yours, the faster you can be processed. Bringing relevant documentation of how the money was acquired can be beneficial. Documentation can include a probate certificate, annual statement or bank statement.

Signatures

The exchange form does not need to be signed in advance. You only need to sign the form when you are at the exchange point and in the presence of the staff. Once the handover is complete, the money has been counted and the necessary documentation is deemed sufficient, the staff will sign the form and provide you with a receipt.
